- Interpersonal Skills

ABOUT ME

Motivated Software Engineering student with hands-on experience in developing responsive, database-driven web applications. Skilled in front-end development, basic back-end integration, and UI/UX design. Seeking an internship or junior-level role to apply technical knowledge and grow as a professional developer.

PROJECT EXPERIENCE

Clothing Store E-Commerce Website (Academic)

- Built a multi-page website using HTML, CSS, PHP, and MySQL
- Implemented CRUD operations and database connectivity
- Designed layouts and wireframes to enhance usability

Restaurant Website (Academic)

- Developed a responsive website using HTML and CSS
- Focused on UI structure, navigation, and responsiveness

Database Management System (Academic)

- Created a desktop-based system using C# and MS SQL
- Implemented data storage and retrieval functionalities

Eco-Tourism Cloud Platform – UI/UX Project (Academic)

- Designed wireframes and interactive prototypes using Figma
- Applied user-centered design principles
